

MOSES' FAMOUS GLADIOLUS

A SUPERIOR and EXCITING GARDEN COLLECTION

Something You Can Enjoy and Talk About

GIANT FLOWERING

Without a doubt the most popular assortment we ever put out. The variety is superb, the color range outstanding. At least 30 varieties of equal proportion go into this fine mixture. Each year a new group of varieties goes into it, and often times, varieties that list for as much as 50¢ each and then you buy for as little as 5¢. You just can't beat this.

FRAGRANCE - SWEET - AROMA

ACIDANTHERA MURIELAE
(Sweet Scented Gladiolus)

TUBEROSE

Grows just like a glad. Pure white with dark purple center. Bulb and plant look like a glad and are cared for in the same manner. Extremely sweet.

Delightfully fragrant, wax-like flowers carried on 2 ft. spikes that make very desirable cut flowers. Plant and care for the same as glads.

PLANT a few groups around in your perennial border or flower garden for that extra delightful fragrance.

Extra Top Size Corms: 6 bulbs \$1.20; 12 for \$2.00; 100 for \$12.00
1 Dozen of each for \$3.50

EMPEROR (Pl. Pat. Pending) is a robust grower, royal purple with light throat. A rich, distinctive color. Makes majestic spikes that grow very tall.

ROYAL STEWART (Pl. Pat. 1339) is a he-man red, straight and with 8-10 open at once. An outstanding winner of top Awards.

MAYTIME (Pl. Pat. 1591) is a real stunning pink with a white throat. Delightful for arrangements. Ruffled and healthy. Remarkably easy to grow.

CARIBBEAN (Pl. Pat. Pending) is a light blue, with throat of cream and white. Sparkling color, ruffled. A top performer in every way.

APPLEBLOSSOM (Pl. Pat. 1517) is white with rose-pink edges—a real beauty. An easy grower that performs excellently with only average culture.

PRICES: 50¢ each.
\$5.00 per dozen.
Any combination.

GIANT MASSIVE BLOOMS

PLEASE NOTE Bulbs are offered as large, medium and small, LARGE are 1-1/2" in diameter and up; MEDIUM are 1" to 1-1/2"; and SMALL are under 3/4" in diameter. 5 bulbs offered at the 10 rate.

We will not accept orders for 5 or 10 varieties of one bulb each at the 10 rate. In other words, we will not split units.

DAHLIAS

The ideal annual landscape plant. A few clumps mixed into the perennial border, used as a foundation plant against the house or garage, even on the shady side, can do wonders through the summer and fall. Many varieties are unsurpassed as cut flowers.

The Numbers (9x3) indicate diameter and depth of bloom.

ALFRED L. MOSES - Lima, N. Y.

Gladiolus DDT

DDT has been found to be very effective against Gladiolus thrips, the tiny insect that sucks the life out of the bloom and foliage as well as feeds on the bulb in storage. During the growing season the plants should be dusted or sprayed every 7 to 10 days from the time they are a foot high until the blooms open. It can be used as a dust or spray.

Dust for Control in Storage

Tests show that either Arasan or Spergon dusted on Gladiolus bulbs at digging time, and again after cleaning when they are put away for the winter, materially checks the advance of the fungus type of Gladiolus disease. These have been recommended as a dust treatment to replace the dip method of using New Improved Ceresan. Just dust the bulbs heavily and plant, and the dust will tend to immunize the bulb. Wettable Spergon can be used if the dip method is preferred.

Spergon Gladiolus Dust

A mixture of Spergon (a fungicide) and DDT. If you use this you do not need to use DDT dust in storage. Dust at digging time and again at cleaning time.

2 ozs. (Treats about 500 bulbs)	\$ 0.50
1 lb. (Treats about 4,000 bulbs)	2.00

ORTHOCIDE - GARDEN FUNGICIDE

50% Captan

Amazing versatile fungicide containing Captan. Controls Black Spot on roses; Powdery Mildew on Tuberous Begonias; Rot and Damp-off on bulbs and seed cuttings.

Selling Points:

1. Outstanding rose black spot control.
2. The most effective control of mildew on Tuberous Begonias.
3. One of the safest fungicides known.
4. Simplicity of application - as a spray or dust seed treatment.
5. Compatible with most commonly used insecticides and fungicides.
6. Economical 1/2 lb. makes up to 25 gallons of diluted spray.

8 oz. canister - postpaid	\$1.59
1 lb. " "	2.39
2 2/3 lb. " "	4.30

ORTHO-GRO - LIQUID PLANT FOOD

Contains organic fish in a balanced fertilizer formulation plus a chelating agent to help correct chlorosis. Fast and all available to the roots and foliage, giving quick plant response.

Selling Points:

1. 10-5-5 formulation also contains chelating agent Versen-ol.
2. A clear liquid free from fish bones, meal, etc.
3. Odor is masked for pleasant use.
4. Economical. House-plants require only 1/2 teaspoon per quart of water.
5. One pint in dilution treats three hundred square feet of lawn.
6. Easy to apply with ORTHO Lawn Sprayer or sprinkling can.

All-America Beauties

★ EASY TO GROW ★ HEALTHY ★ TESTED

These are the selections of the All-America Gladiolus Trial Gardens, and are the cream of the crop. They are sure to grow and bloom for YOU! In the picture above, they are, from left to right, EMPEROR, APPLEBLOSSOM, ROYAL STEWART, MAYTIME AND CARIBBEAN.

Uniform low bulb prices and cultural directions on other side. Every genuine bulb is packaged with the registered AAGS trademark.

A few select florists have been licensed to offer cut flowers of the All Americas for sale. Each dozen bears the variety name with the AAGS trademark on the tag. Ask for them!!!

Printed in USA

The thirty-five All-America Trial Garden locations (see map) are in every type of soil and climate. Recommendation by this non-profit, industry-wide organization is recognized as the most coveted award for any gladiolus. Every variety tested is rated on thirteen specific traits: Color Value, Freedom from Short Heads, Floret Form, Substance, Facing & Placement, Attachment, Freedom from Weathering, Opening & Keeping Qualities, Individuality, Freedom from Crooking, Foliage Health, Husk & Bulb Health, Propagation. **EMPEROR** is the 1958 winner, and is now available with **ROYAL STEWART**, **APPLEBLOSSOM**, **MAYTIME** and **CARIBBEAN**.

All-America varieties are all protected by U.S. plant patents and sold at uniform low prices—the lowest ever for new, quality introductions. Even if you have not been successful with glads before, try the All-Americans. They are *different*.

CULTURE: AAGS recommends these steps for growing glads: (1) Open package at once and store bulb in cool dry place. (2) Plant at intervals of 10 days from last killing frost. Early plantings can stand moderate frost. (3) Plant in open sunny place, in bed or row, and in any well-drained soil. (4) Plant bulbs 5 inches deep, at least 4 inches apart. Use any good commercial fertilizer, but do not put it in

contact with the bulb. (5) Glads like plenty of water, especially when bud is forming. (6) When cutting, leave 4 leaves to mature the bulb. (7) Thrips are insect pests of glads. For complete control, use DDT dust or spray every 10 days. (8) Some growers soak bulbs in Lysol solution for 2 hours before planting and plant wet. Use $1\frac{1}{4}$ teaspoons Lysol to 1 gallon water.

PRICE: \$.50 each, \$5.00 per dozen (any combination) or one of each variety for \$2.25.

EMPEROR (Pl. Pat. Pending) is a robust grower, royal purple with light throat. A rich, distinctive color. Makes majestic spikes that grow very tall.

ROYAL STEWART (Pl. Pat. 1339) is a he-man red, straight and with 8-10 open at once. An outstanding winner of top Awards.

MAYTIME (Pl. Pat. 1591) is a real stunning pink with white throat. Delightful for arrangements. Ruffled and healthy. Remarkably easy to grow.

CARIBBEAN (Pl. Pat. Pending) is a light blue with throat of cream and white. Sparkling color, ruffled. A top performer in every way.

APPLEBLOSSOM (Pl. Pat. 1517) is white with rose-pink edges—a real beauty. An easy grower that performs excellently with only average culture.
